We Appreciate You

Thank You for Caring

Haynes Family of Programs has a mission to strengthen the mind and spirit of children with emotional challenges, special learning difficulties and developmental needs by providing specialized programs in a nurturing, caring and therapeutic environment. That mission is realized because of the collective and individual support of its donors, volunteers, advocates and friends.

You are helping address the emotional and residential needs of boys and teens who, through no fault of their own, are left without a home. Boys and girls unable to learn in public school are reaching their full academic potential as students in Haynes' individualized and adaptive classroom environment because of your support. You are preparing children and families on the brink of collapse to manage life's unpredictability with mental health services.

It is with your support that last fiscal year 2,419 children, teens and their families set new goals and renewed their aspirations for productive futures.

Teaching Moments

This year marked the 21st consecutive Southern California Edison (SCE)/Haynes Family of Programs fishing trip. SCE's Construction Field Forces crew volunteered their time in teaching Haynes residents and students how to fish. At dawn in mid-September, more than 25 SCE volunteers set out on the open sea from Dana Wharf with 60 residents, students and staff from Haynes. Chartering two boats, The Fury and Sum Fun, the volunteers of SCE taught the kids, most of whom had never been on a boat, how to select a fishing rod, bait the hook, cast and reel in their catch.

For more than two decades, the youth at Haynes have benefited from this SCE-sponsored event. It is unique opportunities provided by volunteers that help build character in children by allowing them to experience new challenges and self-fulfillment.

Treasured Community

Every act of generosity underwrites enhanced services provided by Haynes Family of Programs and improves the lives of children in the agency's care. Thank you to the community of supporters for your donations, contributions, sponsorships and in-kind gifts received throughout the year.

Three volunteer-driven fundraising events: Annual Golf Classic, Charity Bike Ride and the Designer Luncheon not only raised the agency's visibility but also netted more than \$140,000 to help fund programs, education and child care expenses.

"This was the best Christmas I've ever had," is often expressed by students and residents because of the kindness of "Santa's Helpers." They ensure that every child at Haynes is gifted with joyous holiday memories that are cherished for a lifetime.

Service with Purpose

The big impact of corporate and community volunteers is evident on Haynes' 21-acre campus. Volunteers from SCE, Keller Williams Realty-Glendora and the University of La Verne helped with painting, playground maintenance, landscaping and more. Volunteerism boosts the organization's ability to stretch resources in direct support of its vital programs that benefit children.

Programs and Children Served - FY 2018-2019

Short-Term Residential Therapeutic Program and Emergency Shelter Care – 109 boys and teens ages 7 to 18

Mental Health Services – 109 youth in residence

Mental Health Outreach – 124 community youth and their families

STAR Academy – 1,794 students state wide

HAYNES FAMILY OF PROGRAMS

Believes:

Individuals learn differently and through a wide range of experiences can express their unique intelligence, talent and ability.

Lifelong Impact of Your Support By T. Manderville, Haynes Alumni

I attended Haynes school, now called Renaissance Community Prep, from 7th to 9th grade. From the time I started school as a child I had a lot of issues. At that age I never thought I could learn or grow from the mistakes I was making. I felt like I was at a very low point in my life at the beginning of 7th grade, as I was getting into trouble and fighting. I felt like no staff could help me or point me in the right direction. When I got to Haynes I didn't want to open-up or talk to anyone because I thought it was going to be the same as the school I came from, where staff didn't care about the students.

Haynes was different because a certain staff member came up to me after class and he asked me about a jacket I had and if I'd bought it. I told him my grandma did, then he said, "Then why is it on the floor? You should treat it with respect because she didn't have to buy that jacket for you." He told me that every time I come into class that I needed to fold it or hang it up because it shows respect toward my grandmother. He also said it shows that I'm grateful for what I have and what she gives me and that it also shows respect to him because I actually listened to what he was telling me. At that time in my life I didn't know what respect was, so this was a significant lesson.

After that I was still making mistakes but every time a staff member took the time to help me through the situation and teach me a better way to handle my problems. By the time my stay at Haynes came to an end I looked back and realized that I learned more in the three years there than I ever did before coming to this school.

All in all, everything that I learned at Haynes I took with me when I left and still use those lessons to this day. Thank you to the staff and to everyone who supports Haynes.
